

***Procedure:***

To begin the drill, Player A can pass to either of the forwards - Players C or D. As Player A strikes the first pass, all four players look to make runs and combine for a finish on goal. Any player can shoot, but **THREE** of the players must touch the ball during the scoring sequence. Upon completion, Players A and B go to the cones, Players C and D rotate off, and two new players join the drill from the passing line.

***Coaching Points:***

- 1 Finishing Runs – Even if the passer looks away from you, continue your run to goal.
- 2 Finishing – Look for first time shots as close to goal as possible.
- 3 Speed of Play – Once the attack is up to speed, either maintain that speed or increase it.

***Progressions/Regressions:***

Progression 1 – First time finishes only, add defenders on the goal line.
